MEMORANDUM FOR: Mr. Hugh Montgomery  
Director, Bureau of Intelligence of Research  
Department of State

FROM: [REDACTED]  
Director, DCI's Computer Security (COMPUSEC) Project

SUBJECT: Final Report of COMPUSEC Assessment of the  
State INR Automated Information System

1. Attached are three copies of the DCI-sponsored Computer Security (COMPUSEC) Project Team's assessment of the security of the INR automated information system. One of the copies is bound and includes the DCI Directives and other pertinent documents which are identified in Appendix III. [REDACTED]

2. As you recall, the COMPUSEC Project Team, under the direction of [REDACTED] performed an initial assessment of your system in November 1983 and then began a more refined and detailed security analysis of the system in March 1984. Drafts of this report of the assessment were sent to appropriate INR personnel and to Peter Kurtz, the systems programmer for the INR system. Based on their concerns with some of the findings in our report, [REDACTED] and his COMPUSEC Project Team modified earlier drafts and brought in highly technically qualified experts who explained our concerns to your representatives. They were Dr. Lara Baker, Los Alamos National Lab (LANL) and Mr. H. O. Lubbes, Naval Electronics Command. [REDACTED]
